

JEREMY MATLOW: All Talk, No Results.

For four years, **Jeremy Matlow** has talked about the challenges facing Tallahassee, but in four years he hasn't delivered any solutions. In fact, he's actually part of the problem!

- ✗ Matlow intentionally **dodged paying taxes** on his business, despite taking federal stimulus money during the pandemic.

Leon County Tax Collector, Small Business Administration

- ✗ Matlow **opposed pay raises for front-line city employees**, but tried to give himself a pay raise as a City Commissioner, even though he's already a millionaire!

- ✗ Matlow even **opposed the Children's Services Council**, which provides funding for important programs for children and youth in our community.
